

# Drive 4 Pledges Day

Your voice can save a life.  
September 19, 2013

“Since 78% of teen drivers say they’re likely to not text and drive if friends tell them it’s wrong or stupid, we think we can make a big impact.”

## Take action

### AT&T DriveMode®

Curb the urge to text while driving with the newly enhanced AT&T DriveMode® app.

When enabled and the vehicle is moving 25 mph, the app automatically sends a customizable auto-reply message to incoming texts\*, letting your friends know you're behind the wheel and will reply when it's safe.

AT&T Customers, download the app for free now:

Android: Google Play | BlackBerry App World™

### Also available:

Verizon Safely Go app. Let Safely Go receive your calls and texts while on the road, keeping you connected and responsible, and make you – and the road – safer.

Safely Go for Sprint app. Make it a habit to focus on driving by using Safely Go to automatically reply to texts and send your calls to voicemail. Be the hero who makes the road a safer place.

## It Can Wait simulator

To help address the issue and show first-hand the risks of texting while driving, AT&T developed a state-of-the-art virtual reality simulator to demonstrate the dangers of texting while driving in more than 400 events nationwide. Sync your smartphone and try our simulator.
